

FCPC[®] EXTRACT PURIFICATION

Separation, Extraction, Purification

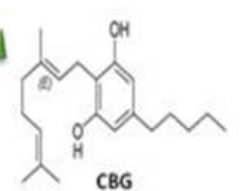

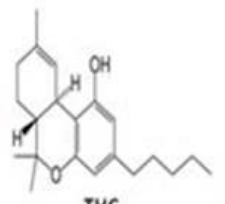

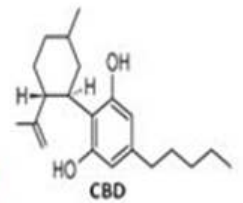

recovery of milligram, gram, and kilogram quantities

pharmaceutical, biological, botanical, food, nutraceuticals, cosmetics, environmental, fine chemistry

CANNABINOID PURIFICATION

Fast Centrifugal Partition Chromatography (FCPC[®])

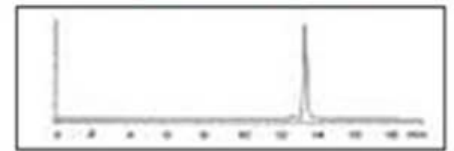

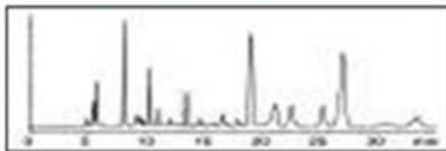

select and recover the compound of interest

Crude Plant Extract

FCPC[®] Purification Technology

Pure Cannabinoids

Kromaton FCPC[®] TECHNOLOGY

- 99% Purity of highly desirable Cannabis compounds such as THC, CBD, and CBG
- Complete Recovery with no loss of delicate compounds due to adsorption
- Ascending & Descending operating modes
- Versatile, Intuitive software management program
- No Costly Packing material like silica or polymers normally used in HPLC
